## mini program guide

As you'll notice with the times for the events, we're doing things slightly different this year...while the remainder of the live programming rooms (panels, workshops, etc), will be running in 'blocks' of 1 hour (1:00-1:50, 2:00-2:50 for example, or 1:00-2:50 for a '2 hr' panel), the main events room is being scheduled timewise based on requirements of the events happening, which don't quite fit so regularly into 50 minute blocks. Hopefully this will result in events starting and ending in a more orderly manner.
